#### EMERGENCY ECONOMIC STABILIZATION ACT OF 2008

On October 3, 2008, President Bush signed into law the "Emergency Economic Stabilization Act of 2008." This bill extended tax credits for energy efficient home improvements (windows, doors, roofs, insulation, HVAC, and non-solar water heaters) that meet Energy Star certification. Tax credits for these residential products, which had expired at the end of 2007, will now be available for improvements completed during 2009.

All Seasons Construction windows and doors are Energy Star rated. Please call us for details on how this tax credit can benefit you.

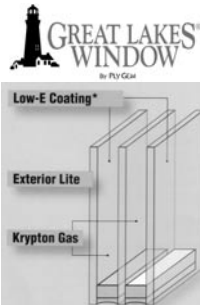

#### THE REAL BENEFITS OF REPLACEMENT WINDOWS

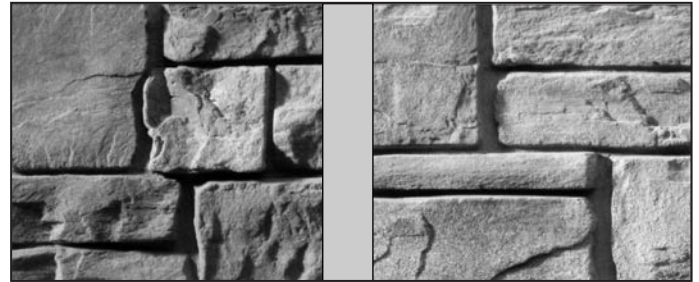

With rising energy costs, there has never been a better time than now to replacing your old, energy wasting windows.

All Seasons Construction offers the PlyGem Lifestyles window from Great Lakes. These windows offer tremendous energy savings through the use of triple pane glass, Low-E coatings, and Krypton gas insulation between the panes.

Additional benefits to the homeowner include better comfort in every area of your home, elimination of sun damage to fabrics and furniture, and a reduction of your "carbon footprint".

#### BELLASTONE™ IS NOW AVAILABLE
